CUROPARK+

CuroPark+ is a cloud-based visitor management software for commercial multi-tenant buildings. It is integrated with CuroPark to manage visitors along with parking seamlessly from single platform. Solution helps in modernizing front desk, easily manage visitors, fast and secure access of visitors.

CuroPark+ is an intelligent visitor management system that helps automate visitor registration, check-in/check-out and automate visitor gates/turnstile. Solution also helps in managing and analyzing guests' visits using real-time dashboard and reporting.

SOLUTION PACKAGE

CuroPark+ is packed with multiple application integrated together as a solution. Solution Package includes -

WEB APPLICATION

CuroPark+ uses CuroPark web application as base and allows employees, company admin as well as building admin to manage guests' visits.

Employees can use web application to invite guests. It allows employees to invite/pre-appoint guests for single/multiple entry, single/multiple days as well as request for parking for guests. A notification to guest is sent as a SMS on successful appointment.

Company admin can pre-appoint multiple guests using import guest feature from web application. Company admin can also manage guests' visits using interactive dashboard and reporting.

Building admin can manage guests' visits using interactive dashboard and reporting.

EMPLOYEE MOBILE APP

CuroPark+ uses CuroPark mobile app as base and allows employees and company admin to invite guests.

Employees and Company Admin can use mobile app to invite guests. It allows employees to invite/pre-appoint guests for single/multiple entry, single/multiple days as well as request for parking for guests. A notification to guest is sent as a SMS on successful appointment.

FRONT DESK APP

CuroPark+ Front Desk App is cloud based app to manage check-in/check-out and generate pass for invited guests as well as walk-in guests at front desk. It takes guests information, photograph, id proof, signature, visiting employee information to generate paper/digital pass with QR code.

It can be configured dynamically as per company requirement for approval as well as notifications.

AUTOMATED VISITOR GATES

CuroPark+ automates visitor gates/turnstile operation using QR code. Gates/Turnstile can be operated using QR Code on Visitors Pass. It helps in managing automatic check-in/check-out of visitors.
